

OPTICAL BIOLOGY

WELLCOME PHD PROGRAMME AT UCL

CALL IS OPEN!

The Wellcome Optical Biology PhD Programme at UCL is inviting applications

Deadline: 9 January 2023

opticalbiology.org/apply

We invite applications from motivated young scientists from diverse backgrounds, including neuroscience, cell and developmental biology, physics, chemistry, and engineering.

Students in the Wellcome Optical Biology PhD Programme get training in state-of-the-art optical techniques that are transforming biomedical research, internship opportunities and dedicated mentorship in a supportive research environment.

Scholarship opportunities for overseas and UK students.

UCL is a leading multi-disciplinary university located in central London, a powerhouse for biomedical and life sciences research.

Move to London!

Ranked best city to live in the world, London is a vibrant, bustling city, a multicultural hub for art, music, science and much more!
