

Latin American Society for Developmental Biology

LASDB MEETING 2019

October 28-31, 2019
BUENOS AIRES ARGENTINA

Day 1: Monday - October 28th

12:00-14:30: REGISTRATION

14:45: Welcome and Introduction (Pablo Wappner).

15:00: ICGEB KEYNOTE LECTURE (Chair: Nicolás Frankel).

Eric Wieschaus (Nobel Laureate 1995, Princeton University).

"Inputs, Outputs and Cell Signaling during Early Development".

SESSION I: Tissue regeneration (Chair: Verónica Palma)

16:00: **Alejandro Sánchez-Alvarado** (Stowers Institute, USA).

"Sources of regenerative capacity in animals".

16:30: **Valeria Canto-Soler** (University of Colorado, USA).

"A retinal organoid view into the mechanisms of human eye development and regeneration".

17:00 - 17:30 COFFEE BREAK

17:30: **Maximina Yun** (CRT & Max Planck IMol Cell and Genetics, Germany) – Short-talk.

"Tig1, a new player in the establishment of the proximo-distal axis during salamander limb regeneration".

17:40: **Paulo Henrique Almeida Campos-Junior** (FUSão Joao Del Rei, Brazil) – Short-talk.

"A subpopulation of bone marrow stem cells shows a primordial germ cell like phenotype and are able to give rise to oocytes in reconstituted ovaries".

17:50: **Juan Larrain** (Universidad Católica, Chile).

"Spinal cord regeneration in the frog *Xenopus laevis*".

18:30: Four flash talks selected from posters.

19:00-21:30: Cocktail Mixer, Gordon Research Conferences Reception:

Expanding Opportunities to Serve Latin American Scientists at the Frontiers of Science.

and poster list

LASDB MEETING 2019

Chick embryo

Plant roots

Drosophila lymph gland

Zebrafish embryos

Day 2: Tuesday - October 29th

09:00: **LASDB PRIZE LECTURE** (Chair: Eddy de Robertis and Oscar D. Perez).

Eugenia del Pino (Pontificia Universidad Católica del Ecuador).

"Oogenesis and development of marsupial frogs".

SESSION II: Cell signalling (Chair: Flavio de Souza)

10:00: **Edward De Robertis** (UCLA, USA).

"Self-organizing morphogen gradients in *Xenopus*".

10:30: **Juan Riesgo-Escovar** (UNAM, Querétaro, México).

"*Drosophila* embryonic epithelial sheets in closures".

11:00 - 11:30 COFFEE BREAK

11:30: **Ariel Bazzini** (Stowers Institute, Kansas City, MO, USA)

"CRISPR-Cas13d *in vivo* RNA targeting to understand early embryogenesis".

12:00: **Andrés Dekanty** (Instituto de Agrobiotecnología del Litoral, Santa Fe, Argentina) – Short-talk.

"Eiger/TNF α -mediated Dilp8 and ROS production coordinate intra-organ growth in *Drosophila*".

12:10: **Sandra Edwards** (Universidad de Chile, Santiago, Chile) – Short-talk.

"Dual role of lysosomal calcium in *Drosophila* immune cells".

12:20: **Miguel Concha** (Universidad de Chile).

"Guidance of collective mesenchymal locomotion by epithelial sheet traction".

12:50: Four flash talks selected from posters.

13:00 - 15:00 LUNCH ON YOUR OWN (& LASDB Board Meeting)

SESSION III: Organogenesis and Pattern Formation I (Chair: Nora Calcaterra)

15:00: **Angela Nieto** (Instituto de Neurociencias de Alicante, Spain).

"EMT and organ positioning in vertebrates".

15:30: **Angelica Sofia Martinez Ramirez** (Northwestern University, Chicago, USA) – Short-talk.

"Acinar cells specification and maturation requires a precise temporal expression pattern of Prox1".

15:40: **Rolando Rivera-Pomar** (Centro de Bioinvestigaciones – UNNOBA-CICBA, Argentina) – Short-talk.

"Bicaudal C is required for the proper function of the follicular epithelium in *Rhodnius prolixus*".

15:50: **Marianne Bronner** (Caltech, USA).

"Mending broken hearts with neural crest cells".

16:20: **Pablo Strobl-Mazzulla** (Intech, Chascomús, Argentina).

"Folate as a requirement in the epigenetic control of neural tube-to-neural crest fate transition".

16:50: **Roberto Mayor** (University College, London).

"Collective migration of neural crest cells".

17:20: Four flash talks selected from posters.

17:30-20:00: POSTER SESSION I - odd numbers (with coffee & refreshments).

20:00: LASDB General Assembly.

Buenos Aires, Argentina

Drosophila ring gland

Medaka embryo

Chick embryo

A. thaliana Pollen

Day 3: Wednesday - October 30th

SESSION IV: Organogenesis and Pattern Formation II (Chair: José García Abreu)

- 09:00: Igor Schneider** (Federal University of Pará, Brasil).
"Deep evolutionary origin of limb and fin regeneration".
- 09:30: Guillermo Oliver** (Northwestern University, USA).
"Novel functional roles of the lymphatic vasculature in organ growth".
- 10:00: Miguel Allende** (Universidad de Chile).
"Telling a tale of tails: The Hox13 genes and the specification of the posterior vertebrae and tail in the Zebrafish".
- 10:30: Luis Morelli** (IBiBA / CONICET – Max Planck Partner Institute. Buenos Aires, Argentina) – Short-talk.
"Tissue level synchronization dynamics in the Zebrafish segmentation clock".

11:00 - 11:30 COFFEE BREAK

SESSION V: Neurogenesis (Chair: Guillermo Lanuza)

- 11:30: Luisa Cochella** (IMP; Vienna, Austria).
"Temporal integration of transcription factors as a mechanism for neuronal diversification".
- 12:00: Eduardo Bouth Sequerra** (Instituto do Cérebro, UFRN, Natal, Brazil) – Short-talk.
"A hypothesis for the origin of the antero-posterior pattern of Zika virus derived brain malformations".
- 12:10: Ximena Soto** (University of Manchester, UK) – Short-talk.
"Dynamic properties of noise prevent the decoding of Her6 oscillator in Zebrafish neurogenesis".
- 12:20: Flavio Zolessi** (Universidad de la Republica, Uruguay).
"Extrinsic signals acting on cell polarity transitions during neuronal differentiation in vivo".
- 12:50: Delfina Romero** (Institut du Fer à Moulin, INSERM UMR-S 1270, Sorbonne University, France) – Short-talk.
"The synaptic scaffold protein Dlgap4 is important for progenitor cell function during cortical development".
- 13:00: Fernanda Ledda** (Instituto Leloir, Argentina).
"New players in adult hippocampal neurogenesis".

13:30 - 15:00 LUNCH ON YOUR OWN

- 15:00: GORDON RESEARCH CONFERENCES POWER HOUR** (Chairs: Marianne Bronner and Nancy Gray).

SESSION VI: Plant development (Chair: Javier Palatnik)

- 16:00: Jorge Muschietti** (INGEBI, Buenos Aires, Argentina).
"Molecular Mechanisms of Plant Fertilization. Autocrine Control of Pollen Tube Growth".
- 16:30: Jose M. Estevez** (Instituto Leloir, Buenos Aires, Argentina) – Short-talk.
"How extracellular and intracellular signals control growth in single cells in *Arabidopsis* roots".
- 16:40: Jean-Philippe Vielle-Calzada** (Langebio CINVESTAV, Mexico).
"Apomixis: evolution, epigenetic control and induction".
- 17:10: Gabriela Pagnussat** (Universidad de Mar del Plata, Argentina).
"A mitochondrial ADX-ADXR-P450 shuttle is essential for gametophytic steroid biosynthesis and reproduction in plants".
- 17:40:** Four flash talks selected from posters.
- 18:00-20:30:** POSTER SESSION II - even numbers (with coffee & refreshments).

21:00: CONFERENCE DINNER (Pizza, Beer and Music)

LASDB MEETING 2019

Mouse embryos

Zebrafish retina

Day 4: Thursday - October 31st

SESSION VII: Early Development (Chair: Paula Vissio)

- 09:00: Darío Krapf** (Instituto de Biología Molecular de Rosario; Argentina).
"Non canonical regulation of PKA activity during sperm capacitation".
- 09:30: Valeria Levi** (FCEyN, Universidad de Buenos Aires, Argentina).
"Dynamics of pluripotency transcription factors and early differentiation cues".
- 10:00: Gertrude Schüpbach** (Princeton University, USA).
"A combination of genetic and quantitative approaches to early patterning events in *Drosophila*".

SESSION VIII: Molecular physiology (Chair: Juan Fernandino)

- 10:30: Irene Miguel Aliaga** (Imperial College, London, UK).
"Sex, guts and babies: the plasticity of the adult intestine".
- 11:00: Andrés Garelli** (Universidad Nacional del Sur).
"Progression through pupariation behaviours requires Dilp8-Lgr3 signalling between the epidermis and brain".

11:45 - 12:45 BRUNCH BREAK (with 20 poster finalists)

12:45: Prizes to best posters presenters.

SESSION VIII: Molecular physiology II (Chair: Silvia Lopez)

- 13:00: Rodrigo Martins** (Universidade Federal de Rio de Janeiro).
"Maintenance of genomic stability in central nervous system development".
- 13:30: Michel Bagnat** (Duke University, USA).
"Phylogenetic identity of vertebral axis imparted by the notochord".
- 14:00: ISDB-MOD LECTURE** (Chair: Angela Nieto).
Claudio Stern (University College London, UK).

Closing remarks

DEPARTURE
